

## 94 TH BATTALION IN ITS NEW HOME

Two special street cars filled with soldiers of the 94th battalion left the corner of May street and Victoria avenue at 2 o'clock this afternoon bound for the west end of the city where in future the Fort William detachment of the battalion will be housed in the Steel Company of Canada's new plant. The building is of huge dimensions and has been fitted up with all conveniences to make the soldiers as comfortable as possible.

The month of January, 1916 was very busy for the 94th Overseas New Ontario Battalion, CEF. As recruitment progressed rapidly, so did the numerous donations from Lakehead residents and local businesses in support of the unit. A curling team was also created in January with Major C.N. Schnarr as the skip. Perhaps the largest development in the month was the B Company (located in Fort William, A Company was located in Port Arthur) leaving their temporary quarters at the Customs Building and moving into to their new headquarters, the Steel Company of Canada plant located in Westfort.
